Full Stack Developer with a strong interest in React, Next.js and Node.js. I enjoy building modern web applications with a strong focus on performance, user experience and clean code.

Curious about emerging technologies, I am also interested in artificial intelligence and quantum computing through various personal projects.

Skills

- **Frontend** : React, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, SCSS
- **Methodologies** : Agile SCRUM
- **Testing** : Jest, JUnit
- **Languages** : English C1, German B1
- **Backend** : Node.js / Express, Java 17, Spring Boot, REST API, Microservices
- **Databases** : PostgreSQL, MySQL, MongoDB
- **Tools & DevOps** : Docker, GitHub, GitLab CI/CD, Swagger, Postman, Jira

Experience

JAN. 2024 – Present

Full Stack Developer — Web Applications & SaaS

- Built multiple full stack applications using React / Next.js, Node.js and PostgreSQL
- Developed StaffFlow, an HR management SaaS platform featuring secure authentication, role management and employee dashboards
- Built Nexa AI, an AI assistant powered by Angular, Node.js and OpenAI GPT-4o mini
- Created DevPedia, a full stack social platform with JWT authentication and user profile management
- Designed secure REST APIs and structured backend data architecture
- Developed modern and responsive user interfaces with a strong focus on user experience
- Improved DevOps practices and explored AI integration within web applications

JAN. 2022 – OCT. 2023

Application Developer (Full Stack) — Open.global

- Developed business SaaS applications using ReactJS and Java / Spring Boot
- Contributed to the design of an HR solution including authentication, business workflows and reporting features
- Worked within an Agile team of 12 developers: sprint planning, daily meetings and demos
- Improved user interface ergonomics and application performance
- Performed functional testing and validated releases before deployment
- Developed a social networking application using ReactJS and Node.js / Express

Education

2021 – 2024

Master's Degree in Full Stack Development — Cloud Campus

Work-study Master's degree specialized in full stack development: React, Node.js, Java / Spring Boot, Angular, DevOps and CI/CD. .

2017 – 2021

Bachelor's Degree in Computer Science — Sorbonne Paris Nord University

Algorithms, Java, C programming, JavaScript, Bash scripting and object-oriented programming.
